RX-100 Series Automatic Strip Cutters

**General Description**

The RX-100 series is a general purpose and economical Automatic Strip Cutting Machine. Available with either hot OR cold cutting knives, this machine is designed for accurately measuring and cutting webbing, hook & loop, seatbelt & elastics up to 5” (130mm) HOT or 4” (100mm) cold.

Lengths may be programmed in either millimeters or decimal inches. Cutting is accomplished pneumatically.

Color touchscreen control panels for ease of use and troubleshooting is standard on all models.

High speed stepping motor is used for accurately measuring materials to length.

**Standard Features**

- hot OR cold cutting models are available
- left to right feed direction
- enhanced, user-friendly touch-screen controls
- built-in memory will store thousands of saved programs
- external USB port is used for additional memory requirements
- built-in fume extractors on all hot knife models
- batch cutting functions for maximum material utilization
- quantity multiples (counts 2X and 3X when cutting multiple rolls)
- switches between metric & inches instantly with no loss of data
- optical sensor detects out-of-material
- full motor speed & acceleration controls for maximum precision or output
- adjustable dwell timers for cutting, ejecting or jam-prevention
- FIVE YEAR WARRANTY on parts & labor

**COMPACT • FAST • RELIABLE • and MADE IN THE USA!**

OPTIONS

- Air assisted index and cut for light-weight and flimsy materials: R200A-220 Index assist; R200A-260 Cut assist
- “One-shot” input foot switch for cutting-on-demand or remote operation: R200A-190
- Photo registration cutting with adjustable contrast photosensor: R200A-168 (12mm contrast sensor)
- Built-in automatic marking with hot foil marking device: R190A-001 Hot foil marking device
- External network connection (ethernet) for remote control, monitoring or troubleshooting: R200A-600 single external ethernet port
- External USB connection for saving and recall of thousands of program recipes: R200A-610 single external USB port
- Other optional & custom components are also available!

INTERNATIONAL / 230V MAINS

This model can be equipped to operate on 120V 60Hz or 230V 50Hz for use in any country and will be fitted with appropriate mains plug. Plug codes are as follows:

- A - Continental Europe, 230VAC 50Hz
- C - Australia & New Zealand, 240VAC, 50 Hz
- D - UK, fused 16A plug, 230VAC, 50 Hz
- H - Israel, 230VAC, 50 Hz
- K - North America, 120V, 60Hz
